

Facility Compliance Reporting

for operating a Food or Engine Service Facility that is regulated per the Town of Rye Ordinance 2022-10 IP & Oil and Grease Management Program

Facility Name: _____

Facility Location: _____

Facility Owner / Operator: _____

Best Management Practices (BMPs) are a major part of the Grease and Oil Management Program and having them implemented in your facility will prevent excessive grease and oil from entering the Town's sewer system. Please read the certification statement below and return this signed document no later than **July 15th** of the current year.

My signature on this document certifies that my facility has operated in compliance from **January** _____ through **June** _____ with the Best Management Practices established by the Town of Rye's Ordinance 2022-10 IP & Grease and Oil Management Program.

Per Ordinance 2022-10, Section G, you are required to send in the Grease or Sand/Oil Device maintenance records for the previous 6 months along with this signed document by or before **July 15th** of the current year. Please indicate your method for providing maintenance records by putting an "X" by one of the following options.

Maintenance Records are attached to this document	
You <u>do not</u> have a grease trap, grease interceptor or sand/oil interceptor at your facility.	
You <u>do</u> have a grease trap, grease interceptor or sand/oil interceptor, but did not have it cleaned or repaired during this reporting period	

****This signed document plus the required maintenance records are to be returned to the Town of Rye Clerk's Office no later than July 15th of the current year by one of three methods provided below. Failure to submit all required information shall be considered an incomplete submittal.****
